At Central Equine Vets we believe in a proactive, preventive approach to your horse's healthcare. We know how important your horse's health is to you and we want to help you keep him / her happy and healthy for longer. This is why we have designed these Equine Health Plans.

An Equine Health Plan makes it easy for you to protect your horse against preventable diseases and discomfort by making sure your horse's vaccinations, parasite control and general health are all up to date. Regular check-ups and early diagnosis of any potential health issues will help your horse enjoy a long, comfortable life, whilst saving you money and worry too.

Equine Health Plans are not insurance: Equine Health Plans include the regular things – like vaccinations, worm egg counts, annual tapeworm treatment, health checks and advice in an easy monthly payment plan – the things that insurance generally doesn't cover. However young or old your horse, an Equine Health Plan is designed to adapt to your horse's needs.

An Equine Health Plan is a simple and affordable way to get all of the preventive care that our practice recommends for your horse.

Plans can be upgraded at any time
